

At AAON, we are committed to continuously enhancing our products through regular software updates. The release notes below provide an overview of updates, features, and hot fixes introduced in the most recent software versions. This document may not include all changes, especially minor adjustments or security enhancements. Features may vary depending on user settings or environment.

Note: AAON software updates are rolled out in phases to monitor performance and adjust as needed before being available to all users. If you are unable to update your software but see new release notes, please check back soon for future availability. It is the responsibility of the building manager to ensure all devices remain current with the latest compatible software version.

BACnet® General Controller SS0077 Software release notes	
Software version 10 – Current Version	October 04, 2023
<ul style="list-style-type: none">• Improvements<ul style="list-style-type: none">○ Updated the bootloader to support more unit addresses○ Merged the timer interrupt sequence to reduce analog input jitter• Hot fix<ul style="list-style-type: none">○ Unit addresses now save automatically after being adjusted
