

At AAON, we are committed to continuously enhancing our products through regular software updates. The release notes below provide an overview of updates, features, and hot fixes introduced in the most recent software versions. This document may not include all changes, especially minor adjustments or security enhancements. Features may vary depending on user settings or environment.

Note: AAON software updates are rolled out in phases to monitor performance and adjust as needed before being available to all users. If you are unable to update your software but see new release notes, please check back soon for future availability. It is the responsibility of the building manager to ensure all devices remain current with the latest compatible software version.

Service Tool SD SS1063 Software release notes	
Software version 1.13 – Current Version	January 25, 2019
<ul style="list-style-type: none">• Improvements<ul style="list-style-type: none">○ The power-up screen now displays the AAON logo.○ The SD card now reads “File up to date” when the file on the controller is equal to or greater than what is currently listed on the software update screen.○ Removed the “Failed to Finalize” pop-up on the software update screen.
